Odisee, University of Applied Sciences

About Us

Odisee is a University of Applied Sciences consisting of 6 campuses in Aalst, Brussels, Dilbeek, Schaerbeek, Ghent and Sint-Niklaas. These are dynamic centres of education, research and social services, located in the heart of Belgium. Odisee deliberately chooses a student-oriented approach, which makes the campuses feel familiar to the students. Odisee is part of the KU Leuven Association, i.e. a network of five universities of applied sciences and one university, offering an impressive network of national partners with more than 80,000 students in 23 cities and municipalities.

Quality Insurance

The different programmes at Odisee are continually revised to ensure they remain as relevant as they can be. Their quality is ensured by the Accreditation Organization of the Netherlands and Flanders. This is the independent educational accreditation body for higher education institutions in the Netherlands and Flanders. It was established by an international treaty by the Dutch and Flemish government, for the purpose of ensuring the quality of higher education in the Netherlands and Flanders.
